

**NetVault Supported Platforms - 6.0.3**

| Platform   | NetVault version                                  |
|--|---|
| Compaq-Digital TRU64 4.0b onwards                    | NetVault Version 6.03 Server and Client, R010215  |
| FreeBSD 4.x  | NetVault Version 6.03 Server and Client, R010222  |
| HP-LUX 10.20 11.00 HP9000/700 and HP9000/800 PA1/PA2 | NetVault Version 6.03 Server and Client, R010214  |
| IBM AIX 4.2/4.3                                      | NetVault Version 6.03 Server and Client, R010215  |
| Linux Kernel 2.2.x                                   | NetVault Version 6.03 Server and Client, R010220  |
| Linux Kernel 2.2.x Alpha                             | NetVault Version 6.03 Server and Client, R010627  |
| MS Windows 2000                                      | NetVault Version 6.03 Server and Client, R010215  |
| MS Windows 95/98/ME                                  | NetVault Version 6.03 Client, R010215             |
| MS Windows NT 4.0 (Intel)                            | NetVault Version 6.03 Server and Client, R010215  |
| NCR UNIX SVR 5.4 MP-RAS R03                          | NetVault Version 6.03 Client, R010912             |
| NCR UNIX SVR 5.4 MP-RAS R03                          | NetVault Version 6.03 Server, R010912             |
| SCO OpenServer 5.0.4                                 | NetVault Version 6.03 Server and Client, R010613A |
| SGI (Silicon Graphics) IRIX 6.2 onwards              | NetVault Version 6.03 Server and Client, R010215  |
| Solaris 2.51 (Sparc)                                 | NetVault Version 6.03 Client, R010720             |
| Solaris 2.51 (Sparc)                                 | NetVault Version 6.03 Server, R010720             |
| Solaris 2.6 7 and 8 (Sparc)                          | NetVault Version 6.03 Client, R010215             |
| Solaris 2.6 7 and 8 (Sparc)                          | NetVault Version 6.03 Server, R010215             |
| Solaris 7 (Intel)                                    | NetVault Version 6.03 Client, R010215             |
| Solaris 7 (Intel)                                    | NetVault Version 6.03 Server, R010215             |
| UnixWare 2.13  | NetVault Version 6.03 Server and Client, R010220  |
| UnixWare 7.1.1                                       | NetVault Version 6.03 Client, R010220A            |
| UnixWare 7.1.1                                       | NetVault Version 6.03 Server, R010220A            |

**NetVault Supported Platforms - 6.5.0**

| Platform   | NetVault version                                   |
|--|--|
| AIX 4.2/4.3  | NetVault Version 6.5.0 Server and Client, R011018A |
| FreeBSD 4.x  | NetVault Version 6.5.0 Server and Client, R011018  |
| HP-LUX 10.20/11.00 HP9000/700 and HP9000/800 PA1/PA2 | NetVault Version 6.5.0 Server and Client, R011018  |
| IRIX 6.2/6.5   | NetVault Version 6.5.0 Server and Client, R011018  |
| Linux Kernel 2.2.x                                   | NetVault Version 6.5.0 Server and Client, R011018  |
| Linux Kernel 2.4.x                                   | NetVault Version 6.5.0 Server and Client, R011018  |
| Linux Kernel 2.4.x                                   | NetVault Version 6.5.0 Server Lite RPM, R020108    |
| OpenServer 5.0.x                                     | NetVault Version 6.5.0 Server and Client, R011018  |
| Solaris 2.51 (Sparc)                                 | NetVault Version 6.5.0 Client, R011018             |
| Solaris 2.51 (Sparc)                                 | NetVault Version 6.5.0 Server, R011018             |
| Solaris 2.6/7/8 (Sparc)                              | NetVault Version 6.5.0 Client, R011018             |
| Solaris 2.6/7/8 (Sparc)                              | NetVault Version 6.5.0 Server, R011018             |
| Solaris 7/8 (Intel)                                  | NetVault Version 6.5.0 Client, R011018             |
| Solaris 7/8 (Intel)                                  | NetVault Version 6.5.0 Server, R011018             |
| Tru64 4.0b-f/5.x                                     | NetVault Version 6.5.0 Server and Client, R011018  |
| UnixWare 2.13  | NetVault Version 6.5.0 Server and Client, R011018  |
| UnixWare 7.11  | NetVault Version 6.5.0 Client, R011122             |
| UnixWare 7.11  | NetVault Version 6.5.0 Server, R011122             |
| Windows 2000   | NetVault Version 6.5.0 Server and Client, R011030  |
| Windows NT 4.0 (Intel)                               | NetVault Version 6.5.0 Server and Client, R011030  |

**NetVault Supported Platforms - 6.5.1**

| Platform                | NetVault version                                  |
|-------------------------|---|
| Linux Kernel 2.2.x      | NetVault Version 6.5.1 Server and Client, R020215 |
| Linux Kernel 2.4.x      | NetVault Version 6.5.1 Server and Client, R020215 |
| MP-RAS R03              | NetVault Version 6.5.1 Client, R020215            |
| MP-RAS R03              | NetVault Version 6.5.1 Server, R020215            |
| Solaris 2.6/7/8 (Sparc) | NetVault Version 6.5.1 Client, R020215            |
| Solaris 2.6/7/8 (Sparc) | NetVault Version 6.5.1 Server, R020215            |
| Tru64 4.0b-f/5.x        | NetVault Version 6.5.1 Server and Client, R020215 |
| Windows 2000            | NetVault Version 6.5.1 Server and Client, R020215 |
| Windows NT 4.0 (Intel)  | NetVault Version 6.5.1 Server and Client, R020215 |

**NetVault Supported Platforms - 6.5.2**

| Platforms   | NetVault version                                  |
|---|---|
| AIX 4.2 / 4.3 / 4.4 / 5.1 (32 bit)                                  | NetVault Version 6.5.2 Server and Client, R020522 |
| FreeBSD 4.0 / 4.2 / 4.3   | NetVault Version 6.5.2 Server and Client, R020522 |
| HP-LUX 10.20/11.00/11.11 HP9000/700 and HP9000/800 PA1/PA2 (32 bit) | NetVault Version 6.5.2 Server and Client, R010522 |
| HP-LUX 11.00/11.11 HP9000/700 and HP9000/800 PA2 (64 bit)           | NetVault Version 6.5.2 Server and Client, R020605 |
| Linux Kernel 2.2.x (RedHat 6.1)                                     | NetVault Version 6.5.2 Server and Client, R020522 |
| Linux Kernel 2.4.x (RedHat 7.x)                                     | NetVault Version 6.5.2 Server and Client, R020522 |
| RedHat Advanced Server 2.1 (Clustering not Support)                 | NetVault Version 6.5.2 Server and Client, R020522 |
| NCR MP-RAS R03.02   | NetVault Version 6.5.2 Server and Client, R020522 |
| OpenUnix 8  | NetVault Version 6.5.2 Server and Client, R020605 |
| SCO UnixWare 2.13   | NetVault Version 6.5.2 Server and Client, R020522 |
| SCO UnixWare 7.01 / 7.1   | NetVault Version 6.5.2 Server and Client, R020605 |
| SCO OpenServer 5.0/5.06   | NetVault Version 6.5.2 Server and Client, R020621 |
| SGI IRIX 6.2/6.5 (32-bit)   | NetVault Version 6.5.2 Server and Client, R020525 |
| SGI IRIX 6.5 (64-bit)   | NetVault Version 6.5.2 Server and Client, R020704 |
| Solaris 2.51 (Sparc)  | NetVault Version 6.5.2 Server and Client, R020522 |
| Solaris 2.6/7/8/9 (Sparc)   | NetVault Version 6.5.2 Server and Client, R020605 |
| Solaris 7/8 (Intel)   | NetVault Version 6.5.2 Server and Client, R020522 |
| Solaris 8/9 (Sparc 64-bit)  | NetVault Version 6.5.2 Client, R020605            |
| Tru64 4.0b-f/5.x  | NetVault Version 6.5.2 Server and Client, R020522 |
| Windows 2000 All Versions   | NetVault Version 6.5.2 Server and Client, R020522 |
| Windows NT 4.0 (Intel)  | NetVault Version 6.5.2 Server and Client, R020522 |

| Client Only Platforms    | NetVault version   |
|--------------------------|--|
| NetWare 4.11 / 5.1 / 6.0 | Binary - Nov204.NPK Support for NetVault Version 6.5.0 / 6.5.1 / 6.5.2 |
| Windows 95/98/ME         | NetVault Version 6.03 Client, R010215                                  |
| Windows XP Professional  | NetVault Version 6.5.2 Windows 2000 Client Install, R020522            |
